TongXin Medical Inc., China — *UX/UI Designer*

Dec. 2017 — Feb. 2018

**Skills:** Wireframing | Persona | Storyboarding | Researching | Writing

- Illustrated design ideas, functions, and solutions to clients clearly
- A created medical system for web workflows with developers
- Optimized the interface, improved physician consultations by 1.5% per day
- Designed wireframes and GUI elements for the medical program

## DESIGN PROJECTS

**UX Designer** — *Construction Website, Volunteer*

Jan. 2022 — Present

- Designed a website for an education business company.
- Worked with the client to translate specific business goals into user-centered web and mobile design solutions.
- Gathered user search information in our agile team, created low-fidelity models of the site and converted them into high-fidelity models for use by the development team.
- Illuminate design principles and reasoning to clients and explain the iterative process.

**UX/UI Designer** — *G-Garden, Academic*

Sep. 2021 — Nov. 2021

- Designed an app and website platform named G-Garden.
- Combined NFT and raising plants together.
- Our goal is to make it a universal template that can be used on numerous platforms.

**UX/UI Designer** — *Lee Hotel, Academic*

Jul. 2021 — Sep. 2021

- Designed Lee Hotel Reservation System
- This system provides a better user experience and helps travelers book their ideal room through a visual selection interface.
- Satisfied the needs of clients to select their check-in rooms.
